

THE BEAUTIFUL DAYS ARE BACK:
THINK OF THE ENVIRONMENT FOR YOUR SPRING
CLEANING!

Have you accumulated leftover paint, batteries, propane tanks, computers, compact fluorescent bulbs and other **household hazardous waste (HHW)**?

Have you done renovation or construction work or do you want to get rid of **large objects** (ex: sofa or computer)?

Bring it all to the ecocentre, located at 2500 rang St-Joseph in Cowansville, so that the **materials can be recycled rather than landfilled**.

The **service is free** for **hazardous waste** of residential origin (with two proofs of residency) and some **charges apply** for **construction materials and large objects**.
